

DR. BRENTANO HOUSE RESTORATION- HOW CAN YOU HELP?

Additional funding is needed to complete the inside renovation. This winter, work will proceed to restore the inside areas.

The goals and objectives for restoring this house include:

1. Storing and displaying historic St. Paul area artifacts and family history.
2. Having a physical meeting space for monthly board meetings and community meetings.
3. Have the House available as a local resource for research, tours, and local history enthusiasts.

Specific items to be included for the interior work will be: ADA accessibility, water and sewer hookup to city services, updated electrical, restore original fir flooring, reconfiguring a dangerous second floor stairway, and heating. The bathroom area will consist of toilet and sink only, and the kitchen area will be sink and coffee area only. These updates and repairs will allow for safe use and access for the public.

We are in need of financial assistance, of any donation amount, to continue our work. As a 501(C)(3) organization, donations are tax deductible. A separate checking account has been set up specifically for the Brentano House.

WE WOULD GREATLY APPRECIATE ANY SUPPORT!
